

WEEKLY HOME STUDY PACKAGE - WEEK 2 (12/07/21 – 16/07/21)

Subject	Office Technology	Year/Level	11
Strand	Computer concepts and skills		
Sub-strand	11.2.2 Use of internet		
Content Learning Outcome	Explore ways of collecting information and communicating using the internet		

LESSON NOTES/ACTIVITY:

Advantages of the internet

- Allows easy and quick access to information
- Enables user to access files and information from any computer anywhere in the world
- People can check financial information, purchase products, talk to people and much more online
- Downloading music quick and easy
- User can send information quickly from computer to computer

Disadvantages of the internet

- It promotes violence and bad behavior with society, as it contains violent videos and other disturbing images.
- It can encourage negative activities such as pornography can now be explored more openly due to the internet
- It stops children from going out, as they wish to stay home and use the internet to talk to friends.

Browser

A Web Browser is a software application used to locate, retrieve and display content on the World Wide Web, including Web pages, images, video and other files. As a client/server model, the browser is the client run on a computer that contacts the Web server and requests information. The Web server sends the information back to the Web browser which displays the results on the computer or other Internet-enabled device that supports a browser.
