

Tavua College

Year 12 TD Home Package One – Solution

Given: The plan and elevation of a house drawn in two-point perspective.

Required:

Write down the **seven** steps indicated on the diagram to construct an instrumental two point perspective drawing of the house.

- Step 1 Project a parallel line to AB on plan from SP to PP
- Step 2 From PP, drop 90° line down to EL to get VP₁
- Step 3 Project all possible heights to VP₁
- Step 4 Drop the height line
- Step 5 Project all possible distance to SP
- Step 6 Project all possible distance from PP vertically down to GL
- Step 7 Project all possible heights to height line
